United States Department of State

A Guide to Doing Business With the Department of State

March 1989

Department of State Publication 9335
Bureau of Management
Office of Small and Disadvantaged Business Utilization

Revised March 1989

For sale by the Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

INTRODUCTION

A Guide to Doing Business With the Department of State is designed to familiarize small, minority and female-owned businesses with the Department's procurement program. The *Guide* is intended to assist those small, minority and female-owned firms seeking to do business with the Department in identifying procurement opportunities within the Department.

The *Guide* is issued by the Office of Small and Disadvantaged Business Utilization (M/SDBU), located in Rosslyn, Virginia, in State Annex 6, 1701 North Fort Myer Drive, Room 212. The office is responsible for implementation of the Department of State's activities on behalf of small and disadvantaged businesses and female-owned businesses in accordance with Public Law 95-507 and Executive Order 12138.

The *Guide* is divided into four sections. Section A (1) summarizes the Department's procurement program, (2) describes the Department's acquisition under the Diplomatic Security Act, and (3) lists user-office contacts under the various categories of products and services for which the Department of State contracts. Section B contains (1) a briefing memorandum to small, disadvantaged and female business owners concerning the Department's Small, Disadvantaged and Female Business Program, (2) a Vendor Survey Form which is used by the Department as a bidder's mailing list application and (3) a listing of all Federal Offices of Small and Disadvantaged Business Utilization (OSDBU). Section C lists subcontracting opportunities available through the Department's larger prime contractors. Section D lists contacts for trade and investment-related issues.

Section A

- **Procurement Program Profile**
- **Acquisition under the Omnibus Diplomatic Security and Antiterrorism Act of 1986**
- **User-Office Contacts**

Procurement Program Profile

The Department of State is actively seeking qualified small businesses, minority-owned businesses and female-owned businesses for participation in contract work generated in the course of its day-to-day operations.

The mission of the Department of State, the making and conduct of foreign policy, does not require a large procurement support program. This is primarily due to the intangible nature of the mission, which does not generate the large support programs existing in many Federal agencies. As a result, the domestic procurement pattern (\$420 million in FY 1988) is chiefly of a general housekeeping nature with some international orientation.

The contract spectrum of this procurement pattern breaks down generally as follows:

1. *Research and Development*

The Department pursues an intermittent physical security research and development program devoted generally to improving resistance to terrorist attacks on diplomatic installations and personnel.

2. *Supply and Equipment*

(a) An annual requirement for a comparatively large (approximately \$5 million annually) household furnishings requirement offers subcontracting possibilities by the prime contractor.

(b) Substantial requirements for communications equipment, usually modified commercially, exist for the Department's worldwide communications network. Very often these must be consolidated with maintenance requirements, which sometimes make them unsuitable for small business capabilities.

(c) Physical security equipment, commercially available, in quantities suitable for small business contracts, is required on a continuing basis.

(d) Computer hardware, mainframe and peripheral, and software requirements, for usual administrative and statistical purposes, partially networked worldwide, comprise a relatively large ongoing requirement. The software and programing portions are particularly suitable to small business participation.

3. *Services*

(a) A substantial continuing requirement, which is suitable for small business contract participation, exists for communication equipment maintenance services.

(b) Household goods packing and storage requirements, which are multiply awarded in excess of \$2 million annually, provide an excellent opportunity for small business participation.

(c) An annual requirement of approximately \$750,000 for general labor services is suitable for small business awards. Other service requirements such as messenger and clerical are available.

(d) Numerous types of management requirements generate contracts in personnel, financial and other administrative areas. These

are often suitable for small business (inclusive of individuals) participation. A \$500,000 annual worldwide local wage survey, currently multiply awarded, is an example.

An exception to the non-program nature of the Department's procurement pattern, as described above, is that associated with the International Narcotics Control Program. A substantial portion of the budget for this program is devoted to procurement related to narcotics detection, interdiction, crop substitution and demand reduction. The foreign detection and interdiction efforts are largely oriented toward aircraft and communications maintenance contracts which, because of their size and the necessarily close relationship with the foreign government involved, do not always lend themselves to small business participation.

All of the procurement activities described above are conducted by the centralized procurement division in the Department, located 1701 North Fort Myer Drive, Rosslyn, Virginia. Additionally, however, a number of decentralized, specialized procurement activities exist. These are described below:

1. *Foreign Buildings Office*

(a) Substantial architectural and engineering contract requirements exist related to the construction and rehabilitation of diplomatic buildings and installations in foreign countries.

(b) Numerous supply contracts, chiefly for hardware and fixtures to be furnished to construction contractors on foreign sites as government furnished equipment, are suitable for small business participation.

2. *Foreign Service Institute*

(a) The major focus of this procurement is upon individual guest lecturers, primarily in the political, economic and foreign area fields.

(b) Book and publication procurement is primarily directly from publishers.

3. *Office of Overseas Schools*

Operates a small procurement program in support of American schools in foreign countries.

4. *Library*

Conducts a small book and publication procurement program, usually directly from publishers.

5. *Language Services Division*

Contracts with individual translators and interpreters.

6. *Office of Foreign Missions*

Limited engineering, building maintenance and renovation business opportunities exist related to the rehabilitation of certain foreign missions property within the United States in the custody of the Department of State. Firms interested in such contract opportunities should contact Mrs. Durie White, Office of Small and Disadvantaged Business Utilization, Department of State, SA-6, Room 210, Washington, D.C. 20520. Telephone (703) 875-6824.

Acquisition Under the Omnibus Diplomatic Security and Antiterrorism Act of 1986

For each of the fiscal years 1988 through 1992, Congress has authorized funds to be appropriated to carry out diplomatic security construction, acquisitions, and operations, pursuant to the Department of State's Supplemental Diplomatic Security Program.

In the area of embassy design and construction, there are currently 57 capital projects planned through 1992. Information regarding these projects is released through the *Commerce Business Daily* and other construction trade publications when the projects are ready to be designed, constructed, or government-furnished materials are to be purchased.

Firms interested in performing embassy construction should direct their attention to Section 402 of the Omnibus Diplomatic Security and Antiterrorism Act of 1986. Section 402 addresses preference for United States contractors, utilization of minority and small business contractors, qualifications criteria, and subcontracting limitations on construction projects.

Limited contracting opportunities may exist for government-furnished equipment (GFE) such as bills of material (BOMs) for post communication centers and for security materials. Interested firms should contact Richard Natale at the following address:

Department of State
A/FBO
SA-6, Room 411
Washington, D.C. 20520
Telephone: (703) 875-6283

Any firm which has a new or innovative product (R&D) which could be used to enhance security at a U.S. Embassy abroad, may contact Rudy Jackson at the following address:

Department of State
DS/OSP/PSD
SA-6, Room 804
Washington, D.C. 20520

Other products such as bullet-proof glass, closed-circuit televisions, intrusion detection devices, and the like, are also part of the procurement pattern under the security program. Firms wishing to market such products should contact Nicholas Mariano of the Department's Physical Security Division at the aforementioned address.

Firms interested in performing services related to embassy security such as security engineering, construction management, construction surveillance, and the like, should contact Mr. Wayne Algire at the following address:

Department of State
DS/NBSM
SA-6, Room 804
Washington, D.C. 20520

For planning purposes, it is projected that during FY-89 and FY-90, architect engineer and/or construction projects at the following Foreign Service posts will be advertised or awarded; Santiago, Chile; Rabat, Morocco; Stockholm, Sweden; Jerusalem; Jeddah, Saudi Arabia; Colombo, Sri Lanka; Belgrade, Yugoslavia; Singapore; Tel Aviv, Israel; Ottawa, Canada; Port Moresby, Papua New Guinea; Tunis, Tunisia; Algiers, Algeria; Bangkok, Thailand; Bogota, Colombia; Djibouti, Djibouti; Istanbul, Turkey; Lima, Peru; and Seoul, Korea.

- **Vendor Survey Form**
- **Federal Offices of Small and Disadvantaged Business Utilization (OSDBU)**

Small, Disadvantaged and Female Business (SD&F) Owners

The Department of State is steadily and substantially increasing participation by small and small-disadvantaged businesses, female-owned businesses, and labor surplus area businesses in a broad spectrum of acquisitions through the expanded use of small, disadvantaged and female-owned business firms locally, nationally and internationally. These acquisitions range from recurring needs for goods or services to one-time needed procurements or research projects. Good results have been achieved principally through a daily intensive review of acquisitions and/or increased efforts by user offices to locate SD&F suppliers. Also, we have kept close liaison with local and regional offices of the Small Business Administration which have furnished names of suppliers of goods or services. In addition, we search our vendor file, using Product and Service (P&S) codes, to locate prospective suppliers. Using the foregoing methodology, the Department is gradually broadening its base of information on SD&F firms. More and more suppliers in the under \$2,500 acquisition category will be awarded to SD&F firms and, similarly, larger acquisitions should increase substantially.

For example, Washington, D.C., a labor surplus set-aside area, receives many requisitions for services ranging from transportation to software and maintenance of hardware, communications and building maintenance.

Beyond the District of Columbia, SD&F firms in various cities throughout the United States have participated in advertising, architectural and engineering design, computer software services, messenger vehicle maintenance and international affairs research.

In recent months the Department has extended SD&F firm participation in its acquisitions beyond the Continental United States, primarily in the drug abuse and narcotics control program and in renovation, rehabilitation, and maintenance of U.S. Embassies overseas. Administrative statistical research type acquisitions to be performed abroad will also be given to qualified small, disadvantaged and female-owned businesses.

Whenever a conference is held by the Department of State a variety of local facilities are utilized. These are: motel/hotel space, vehicle rentals, telephones, clerical help and advertising.

I invite all firms wishing to do business with the Department of State to compete with other suppliers by asking to be placed on our vendor/bidder's list. Please see attached application. If you do not have a Dun and Bradstreet number the Department will obtain one for your firm. Also, please list up to five (5) products and/or services offered by your firm.

When complete, please remit to:

Small/Minority Business Enterprise
Coordinator
M/SDBU, Room 212, SA-6
Department of State
Washington, D.C. 20520

If there are any questions, please call Mr. Robert A. Cooper, Jr. or Mrs. Durie N. White on (703) 875-6823. Thank you for your interest in being of service to the Department of State.

Sincerely,

Robert Dickson
Chief, Procurement
